

Introducing
NEW PROGRAMMING FOR 2017!

Special Needs Music Therapy Groups

Music Therapy Club (3 - 7 years) A supportive music-making environment that facilitates engagement, joy and success for all. Specially designed for children who need music experiences that take full advantage of their individual strengths while minimizing the impact of difficulties. A family-based group for parents and children; siblings are welcome to join in the fun.

Pre-teen Music Therapy Group (9 - 13 years) This group offers a supportive environment where pre-teens with special needs can improve social skills, build bonds and engage in peer-to-peer interactions. Also offers opportunities for leadership and creative expression, all with the help of music. * See Note Below

Teen Music Therapy Group (14 - 22 years) Specially designed for teens and young adults with special needs, this group uses structured music making, improvisation, songwriting or lyric analysis while providing a safe space for exploring potential and developing satisfying relationships with others. * See Note Below

** Please Note: We will have coffee and light refreshments in our reception area for parents and caregivers. We encourage you to stay and make connections, listen to the music your child is making or just take the time to recharge. These are not drop off groups but independent music making opportunities for children and young adults.*

**Not sure if one of these groups is a good fit,
need more details, or ready to enroll?**
